

# WATERJET TECHNOLOGIES

Cyclone High Pressure Cleaning Solutions

COMPLETE HARD SURFACE CLEANING SOLUTION  
EASY TO USE AND COST EFFECTIVE

Faster, Greener, Cleaner  The Cyclone Difference

## CY5500

Hard surface cleaning with recovery

Water recycling extends run time up to 5 hours on single tank of water

Cleans up to 20,000 ft<sup>2</sup> (858 m<sup>2</sup>) per hour

Variable output pressure from 4,350 to 1,200 psi (297 to 83 bar) for sensitive surface cleaning

Equipped with curb and gutter cleaning nozzle as well as a hand-held spray wand for easy clean-up

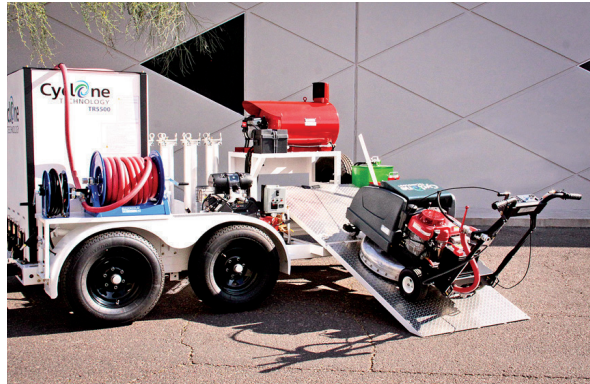

## TR5500

Trailer integrated hard surface cleaning system with recovery

Diesel-fueled water heater on-board

Walk-behind cleaning head with self-propelled option

Pivoting ramp for easy loading and unloading of CY210

## SK

Truck integrated hard surface cleaning with recovery

Diesel-fueled water heater for an aggressive clean

Automatic lift gate for quick and easy loading of CY210 walk-behind

On-board, multi-stage filtration system for recycling water

## CY210

High pressure coating removal attachment

Hand adjustable controls to regulate output of pressurized water

Self-propelled with four speeds

# 4006 AC

- Purpose built machine, eliminates costly truck chassis
  - Top performance in friction values – U.S. Army Corps of Engineers report
  - Easy and intuitive operation via LCD display
  - Removes up to 20,000 ft<sup>2</sup> (1,858 m<sup>2</sup>) per hour for rubber
  - Removes up to 10,000 linear ft (3048 m) per hour for paint
- .....

# 4006 ST

- Over-the-road, truck integrated system that does not require Commercial Driver License (CDL)
  - Compact size provides quick and easy access to smaller project locations
  - Full wastewater recovery without noisy vacuum blowers and sealed tanks
- .....

# CY7500

- Cleans up to 200,000 ft (18,580 m<sup>2</sup>) per hour depending on dirt buildup
- Water pressure up to 7,500 psi
- 4,000 gal capacity with recycling
- 88 inch cleaning path

# CY200 UHP

- Ultra-high pressure walk-behind paint removal attachment
  - Hand trigger controls the output of the pressurized water
  - Self-propelled with four speeds
- .....

# 4006 HT

- Over-the-road, chassis-mounted system for enhanced mobility to job sites
- Large water capacity, 1600 gal (6000 l) extends operating time over 5 hours of continuous cleaning
- Cyclone cleaning system fully recovers wastewater without loud vacuum system
- Adjustable paint line cleaning path from 6 to 16 inches (15 to 41 cm)

# The logo for Waterjet Technologies. It features the word "WATERJET" in a large, bold, yellow sans-serif font. To the left of the "W" is a stylized yellow icon consisting of several vertical lines of varying heights, resembling a fan or a jet. Below "WATERJET" is the word "TECHNOLOGIES" in a smaller, bold, grey sans-serif font.

*Waterjet Technologies, LLC is a proud distributor of Cyclone Technology hard surface cleaning systems. Cyclone Technology has over 30 years of industry experience designing and manufacturing hard surface cleaning and rubber removal machines. The multi-patented Cyclone cleaning head, featured on all products, is the state of the art in green technology.*
